- Change Management
- Rentals, Repair & Refurbishment

### Regulatory

- Lease & Contract Review
- Summary Preparation
- Drilling Permit Applications
- Land Data Conversion
- Research Compliance Review

### → Acquisition Evaluation

- Screening to High-grade Opportunities
- Engineering, Geological & Economic Analysis
- Capital & Expense Assessment
- Review of Land, Operations & Commercial Terms
- Risk Assessment
- Economic Modeling & Sensitivity Analysis
- Due Diligence
- Transactional Support

### → Data Management

- Post-acquisition Data Assimilation
- Data Organization, Imaging, Filing & Indexing
- Well Data Integrity & QC Reviews
- Compilation of Historic Data (Multiple Heritage Sources & Storage Systems)
- Structural Database & Process Development
- Technical Data Population (New or Existing Databases)

### → Field Optimization

- Innovative Solutions to Enhance Production & Reduce Costs
- Debottlenecking, Problem Detecting, Downhole Productivity Analysis & Equipment Troubleshooting
- Introductions of New Technology Applications
- Fit-for-Purpose Studies Encompassing Facilities, Production, Reservoir Engineering & Operations
- Location Specific Expertise

GEORGETOWN OILFIELD PARTNERS

ONE STOP  
SOURCING  
GUARANTEED  
EXPERTS
